Dear Bud,

As always, regretably, in too much haste, I've prepared a summary of ~~EMMP~~ POST MORTEM including the essential and perhaps too long.

So, here it is, so you can decide whether I should give it to them or not.

I'll have some of the documents with me.

I now have the confirmatory King tapes. These include an eye-wtiness account of the wound and the effect of the bullet, indicative of a dumdum.

Do not let me forget to mention, privately, suit against the government and the Times-Picayune/Bringuier or, alternative, letting him sue me.

I leavef for California 11/21, for two weeks. If there are any special chores you'd like me to undertake, please do not trust my memory on them.

Whether or not Lil goes to town with me, I'll be able to stay as long as necessary.

Sincerely,
